

BLISS COLLECTION

The Bliss Collection is currently our most high-end vinyl product, constructed from Wood Plastic Composite, which is warmer to touch relative to most other vinyl products on the market today. Each color was picked for its popular, trendy design and robust locking system. To maintain durability and strength, Bliss WPC comes in extra wide 9 inch planks and 5ft in length at 7mm thick with 1.5mm of cork underlayment.

5G installation secures installation with a visible and audible locking function. When a panel is folded down, a flexible plastic tongue is pushed into a tongue-groove. As the panel reaches its final position, the locking tongue snaps out into a wedge groove, emits a "click" sound, and locks the product vertically.
